About Me

Tech enthusiast with a strong passion for AI and continuous learning, currently working in AI data operations with hands-on experience in RLHF and LLM training pipelines. Open to opportunities in Frontend/Backend Development, Web/Application Development, Gen AI, Data Science, and Project Management.

Education

Binus University
Bachelor of Computer Science

- GPA: 3.81 / 4.00
- Research Paper titled "Digital Innovation Approach for Stunting Knowledge and Awareness in Society" at ICORIS 2023.

Work Experience

GenAI Queue Manager - Scale AI **Apr 2026 - Present**

- Manage contributor workflows: task assignment, queue prioritization, and bottleneck clearing, while auditing work quality and giving direct feedback to maintain reliable training data for LLM/RLHF pipelines.
- Collaborate with cross-functional teams on project scope, timelines, and standards, translating complex annotation guidelines into clear workflows for contributors.

Software Engineer AI Training - Scale AI **Apr 2025 - Apr 2026**

- Reinforcement Learning from Human Feedback (RLHF) to train AI models
- Supervised Fine Tuning (SFT) evaluations

Full Stack Developer - Prime Genius Academy **Feb 2025 - Apr 2025**

- Building web application for tutoring management using NextJS, NodeJS, MySQL.

Full Stack Developer Intern - PT. Nusantara Compnet Integrator **Feb 2024 - Feb 2025**

- Full stack web development for Sistem Informasi Manajemen Perlindungan Konsumen dan Tertib Niaga (SIMPKTN) application.
- Front-end development using ReactJS, Back-end using NodeJS, Database using PostgreSQL.

Skills

- **Javascript**
- **HTML**
- **CSS**
- **MySQL**
- **PostgreSQL**
- **ReactJS**
- **NodeJS**
- **WordPress**
- **Python**
